Letter of reference for Mr. Zeljko Óskar Sankovic

To whom it may concern:

Mr. Zeljko Óskar Sankovic is an experienced, hard working coach who has been working for many years in Iceland at various levels with clubs like Grindavik, ÍBV and HK to name a few. He has earned a reputation for being very good at working with individual players on developing their technical skills. Mr. Sankovic has both worked at the youth level and also at the top end of the game as a coach in our top league. I have had the pleasure of following his coaching career from distance and I can confirm that he has earned himself a very good reputation here in Iceland. It is with pleasure that I write for him this letter of reference, and I wish him the best of luck and success as a coach at his future club. I know wherever he goes he will coach with passion and enthusiasm and do it wholeheartedly. For further information please do not hesitate to contact me.

Respectfully yours,

Sigríður Eyjólfsson
Technical Director

Reference letter to whom it may concern.

I have known Zeljko Óskar Zankovic since i was 10 year old. His character, kind personality, reputation , experience and his thinking of the game is something you cannot find in many coaches, those are just few reasons why i wanted to work and learn from him both invidually and with his team. That is why i moved from Vikingur FC to his team HK football club when i was 14 year old. I honestly can't say i regret that decision because he was the coach who kickstarted my career after i lost the grip of the way i wanted to go at Vikingur FC. I look at him as the person in Iceland that has done the one of the most important parts of my career along with my parents. That was to prepare me mentally, physically and technically for the the coming years ahead of me. What he did for me and our team shows his deep passion for the game. He was and is constantly on top of every aspect that took part in the process of how i and everyone else in our team could reach their highest potencial.. Since i met him first he treated me with respect, kindness and always believed that i could and would reach my dreams and goals. I will always be grateful to him for that.

If any questions please don't hesitate contacting me.

To whom it may concern:

This is to certify that Mr. Zeljko Óskar Sankovic has been employed as football coach at HK in Kópavogur, Iceland, since October 2004.

Mr. Sankovic has, during this period, been head coach of the club's U20 team and the U17 team, has served in a supervisory and consulting capacity for groups of lower age and as consulting coach for the club's first team and reserves.

Mr. Sankovic has also served as head coach of the club's football academy since fall of 2005.

Mr. Sankovic has proven himself to be an exemplary coach and has been an inspiration for us to work with in a multitude of ways. As a coach his strongest side is his work with players on an individual level. His eye for latent talent and his relentless efforts in teasing it forth has made excellent football players out of boys the rest of us had given up on. In that area his work has been invaluable for both the boys in question and the club.

As an individual Mr. Sankovic is goal oriented and while he is capable of being flexible in his dealings with his surroundings, he never loses sight of his goals and has shown himself to be willing to sacrifice heavily to reach them.

Although Mr. Sankovic and HK may have reached a point where paths need to part, he will be missed, both as a coach and as an individual.

Personally I have found in Mr. Sankovic a friend who has enriched my understanding of the diversity of human existence and one I hope to keep contact with in the future.

Recommendation!

I have known Zeljko Oskar Sankovic from the time he came to Iceland in 1997 and began to live in the town of Ísafjörður. Together we taught students at a local high school, lived in the same house, and under his leadership I played in the football club Ernir.

In my opinion Zeljko is a unique person and coach, I have never met anyone like him. He always has big goals and works hard to achieve them. In Ísafjörður he worked from early morning until late in the evening. His training sessions were always difficult and people were tired, but that is not a problem when you feel that the coach is very organized and has a lot of knowledge about the methods of training and tactics – each exercise with Zeljko had a purpose, there was a reason behind every shot and sprint. He also worked hard to understand each player as a footballer and a person, being aware of the psychological aspect of the game and he really knows how to inspire his players.

As a coach Zeljko is a complete person, aware of the importance of all the different aspects of the game of football: tactics, physical training, psychology, and motivation.

My experience working with Mr. Sankovic as a football coach, in the club where we worked together, me as a player and Mr.Sankovic as the first coach, gave me a remarkable impression. I can say that during that period I was promoted as a footballer, but also as a person, because Mr. Sankovic transfers his rich experience to his players in a very simple way. Zeljko Oskar Sankovic is an ideal person for the main club coach. His education, experience and football philosophy,that time has confirmed in all clubs where he worked, is a guarantee for the progress of coaches and footballers who work under his control.
